PROJECTS

GenzCart

- Designed and developed the frontend of GenzCart, an e-commerce platform tailored for Gen Z consumers, utilizing technologies such as HTML, CSS, JavaScript and React Js.
- Implemented intuitive user interfaces, responsive design principles, and interactive features to enhance user engagement and provide a seamless shopping experience, resulting in positive feedback from users.

StudiHub- An E- Learning Platform

- Designed and iterated on UI layouts and components for the platform, resulting in a 20% increase in user engagement metrics.
- Executed responsive design strategies, enhancing performance across 15 different devices and screen sizes, resulting in a 25% reduction in drop rates.

Fitness Freak (Clone)

- Designed and implemented the Home Page, Workout Page, Healthy Recipe Page, and About Page using HTML, CSS, and JavaScript.
- Developed the Login and Sign-Up functionality to allow users to create accounts and access personalized content.
- Created the Products Page with Add to Cart feature for users to browse and purchase fitness-related products.
